

PACKPACT YOUR ADVANCED PARTNER IN PROCESSING AND PACKAGING will exhibit at the 26th ProPak China 2020 trade show, organized by Sinoexpo Informa Markets, which is going to take place from the 22nd to the 24th of June 2020 at the National Exhibition and Convention Center of Shanghai.

As the premier processing and packaging event for China, ProPak China 2020 provides processing and packaging solutions to food, beverage, dairy, pharmaceutical, cosmetic and other industries and it is the best place to find out which machines, systems, technologies and applications are made possible by the latest developments. With a comprehensive range of exhibits, international business platform, extensive supporting program, the entire industry meets here.

During the last edition in 2019 ProPak China achieved significant growth thanks to the joint collaboration with the China Food and Packaging Machinery Industry Association and the China National Packaging and Food Machinery Cooperation, and their FoodPack brand. The total of 890 exhibitors from 22 countries and regions were an increase of 31% from 2018. Exhibition space also grew by a massive 56% to 70,600m², while trade visitors were also up significantly by more than 30% to 19,311.

For the next edition, ProPak China will afford over 1,000 leading exhibitors from more than 20 countries and regions the opportunities to showcase their latest industry innovations, and this event will also provide participants with opportunities to observe machinery in action and at full scale. In addition, a series of technical forums will be held alongside ProPak China 2020 to share knowledge on the ever-changing Chinese landscape and describe breakthroughs and best practices to participants.

The Italian companies joining PACKPACT YOUR ADVANCED PARTNER IN PROCESSING AND PACKAGING are waiting for you at ProPak China 2020!

The Network is composed by industry-leading companies in processing and packaging which enables the market the expertise, effectiveness and exhaustiveness of a onestop-shop service. The Italian companies joining the Network are now seven and stand out for their expertise and innovative projects; they are present on several markets to provide all the clients with comprehensive technological solutions and to optimize their business. A complementary network shaped by companies representing the Italian excellence in processing and packaging, able to compete in the global market with all international big players.

Here there are the seven Italian companies, that are exhibiting in Hall 5.1 Booth 51E600:

- **CAMA GROUP** is a leading supplier of advanced technology secondary packaging systems, continuously investing in innovative solutions.

- Founded in 1987, **CLEVERTECH** is located in Emilia Romagna in the so called packing valley due to the presence of many OEM companies specialized in packing equipment. CLEVERTECH is leader in the automation sector and designs and produces palletisers, depalletisers and integrated handling system for different type of industries.
- **ILPRA** is one of the leading companies worldwide in the packaging sector and it stands out for its extensive range of packaging machines. Filling/dosing, traysealing and thermoforming lines are the perfect solution to package different products according to customer's needs for food, non food and medical sectors.
- **MAKRO LABELLING** is an Italian manufacturer of industrial labelling machines in the beverage, food, home-personal care and pharmaceutical sectors. The company has successfully substantiated its leadership on European and overseas markets by building up a strong network of agencies, representatives and direct branches.
- **RONCHI MARIO** is specialized in finding the specific solutions for solving any requirement. Fillers - Cappers - Unscramblers - Orientors are Ronchi's principal products.
- **TOSA GROUP** is the guardian angel of your goods. Leader in the end-of- line market, the group is able to meet every need for stabilization and safety of loads, whether palletized or not, with its complete range of wrapping machines, strapping machines, shrinking machines and pallet handling systems in 115 countries.
- **UNIVERSAL-PACK** designs and manufactures technology for single dose packaging in the pharmaceutical, chemical, cosmetic and food industries: advanced solutions for stick-packs, sachets and cartons.
