

PROCESSING & PACKAGING -THE HIGH-TECH ITALIAN WAY will exhibit at "Indiapack" 2018 trade show, that is organized by the Indian Institute of Packaging, and will be held October 24th - 26th 2018 at Bombay Convention & Exhibition Centre, in Mumbai (India).

The show will be co-located with the trade fairs pacprocess India and food pex India and both three shows are members of the "Interpack alliance", that represents the new label which spans all international events staged by Messe Düsseldorf under its Processing & Packaging portfolio. They have a leading role in this industry in India, covering the entire bandwidth of food, beverages, baked goods, confectionery and pharmaceuticals, cosmetics as well as non-food and industrial goods.

PROCESSING & PACKAGING -THE HIGH-TECH ITALIAN WAY is a network of industry-leading companies in processing and packaging which enables the market the expertise, effectiveness and exhaustiveness of a one-stop-shop service.

The Italian companies joining the network stand out for their expertise and innovative projects; they are present on various markets to provide all the clients with comprehensive technological solutions and optimize their business.

A complementary network shaped by companies representing the Italian excellence in processing and packaging, able to compete in the global market with all international big players.

Processing & Packaging -The High-Tech Italian Way- gives clients the chance to benefit from top technological solutions by industry-leading companies and the possibility to refer to a unique partner for all manufacturing needs, with a comprehensive range of integrated solutions and unmatched made-in-Italy technology.

The network companies:

CAMA GROUP is a leading supplier of advanced technology secondary packaging systems, continuously investing in innovative solutions;

CLEVERTECH S.p.A., headquartered in the North of Italy, markets engineered front & end-of-line solutions. The company operates in the food & beverage, home care, pet food and personal care sectors;

MAKRO LABELLING S.r.l. is an Italian supplier of industrial labelling machines in beverage, food, home-personal care and pharmaceutical sectors;

RONCHI MARIO S.p.A. is specialized in finding the specific solutions for solving any requirement. Fillers, Cappers, Unscramblers, Orientors are Ronchi's principal products.

During "Indiapack 2018" Ronchi will present to the Indian Market the newest EXACTA/R 12/6, the most renowned Filling-Capping Monoblock in a new and technologically advanced version.

Specially designed for Cosmetic, Chemical, Food & Pharmaceutical industries, it is equipped with 12 filling stations with magnetic inductive flow-meters (as for all Filling Machines of the Exacta series, it is possible to fit mass-type flow-meters); it is manufactured in "ultra-clean" version and all parts in direct contact with the product, from collector to filling nozzles, are made in 316L steel. New closed loop C.I.P. system ensures the most efficient washing process, automatically carried out through a simple touch from the operator's panel.

It is provided with 6 capping stations suitable to handle all kind of caps and pumps: each of the capping stations is equipped with an independent servo-motor which ensures maximum production flexibility and extremely precise torque control. Its Electronic Cam ensures rapid and automatic format change over, other than offering the greatest flexibility for handling different type of pumps with dip-tubes having different lengths. Also, the dip tube is positively guided and controlled throughout the insertion process.

This new machine can handle screw-on caps, press-on caps and caps to be oriented.
